

Tugas Praktikum Sistem Operasi

Nama: Eko Prasetyo

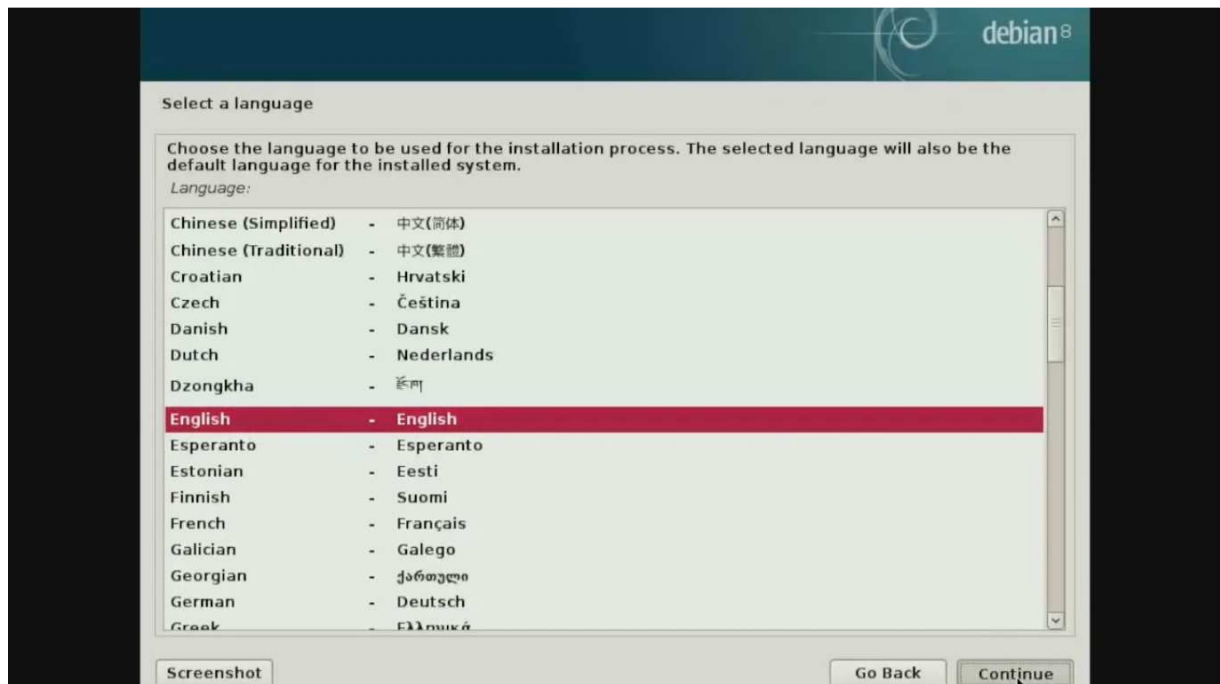

Nim : 2015470068

Instalasi Linux 8 “Jessie”

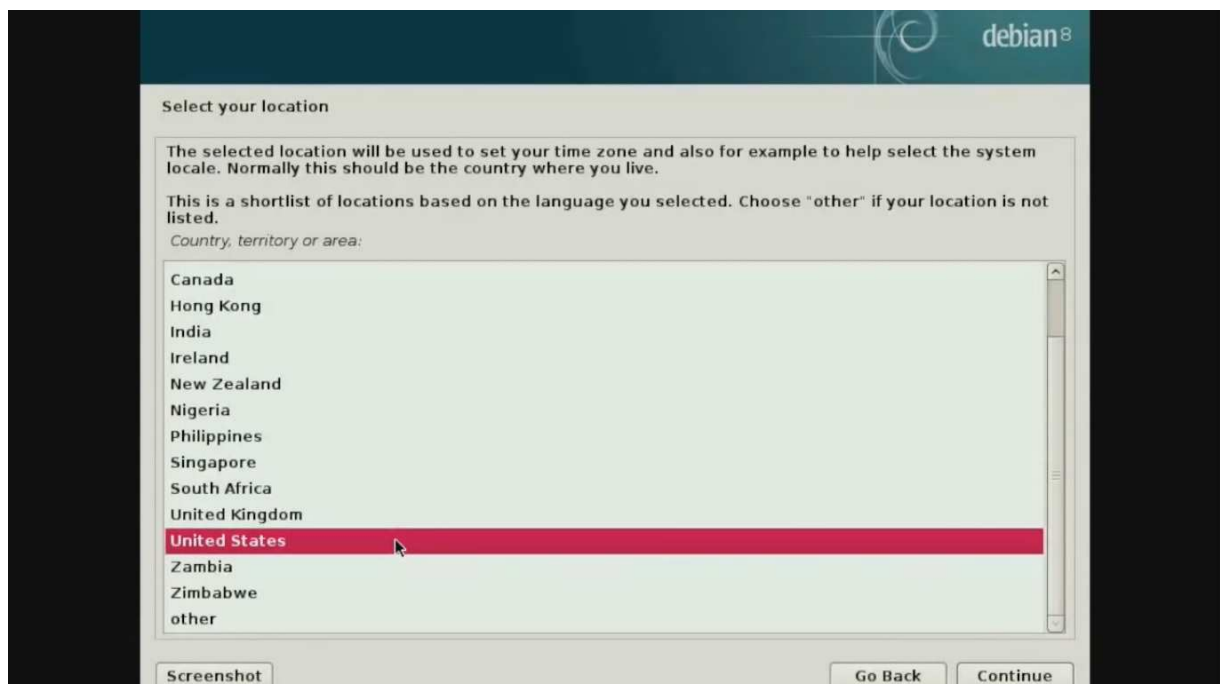

Berikut ini adalah langkah-langkah instalasinya, kita tinggal mengikuti seperti apa yang di contohkan di gambar.

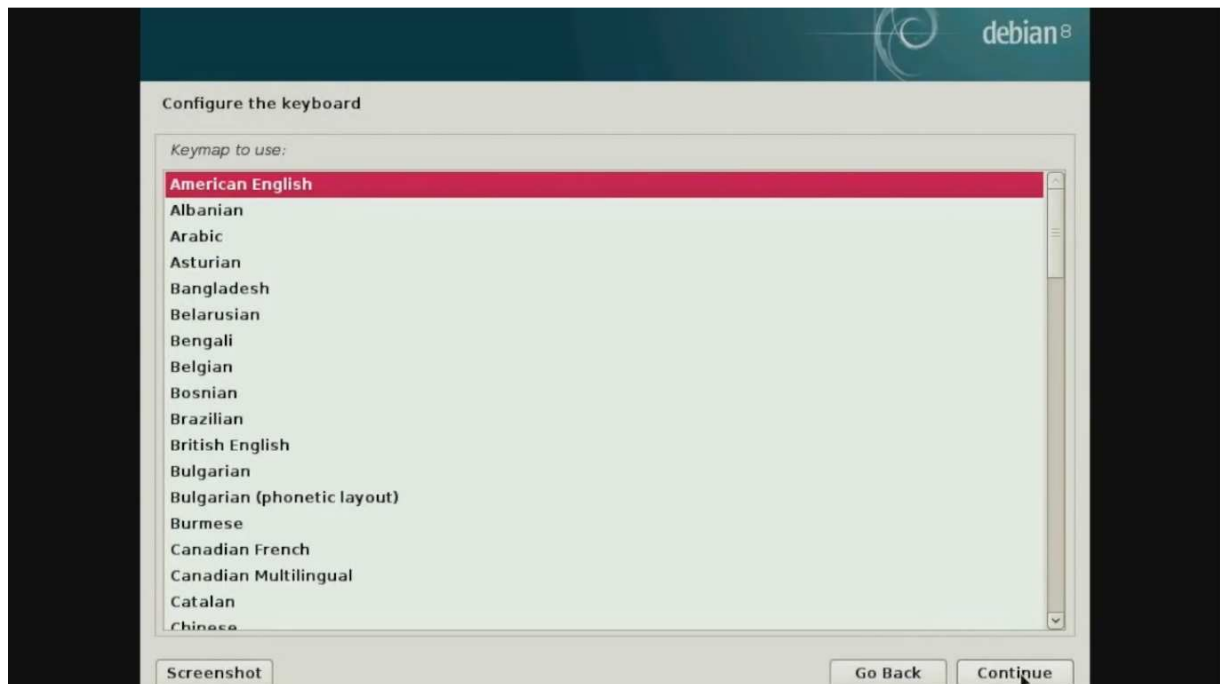

Kita Pilih Ghrapical Install untuk Proses Instalasi Berbasis GUI.

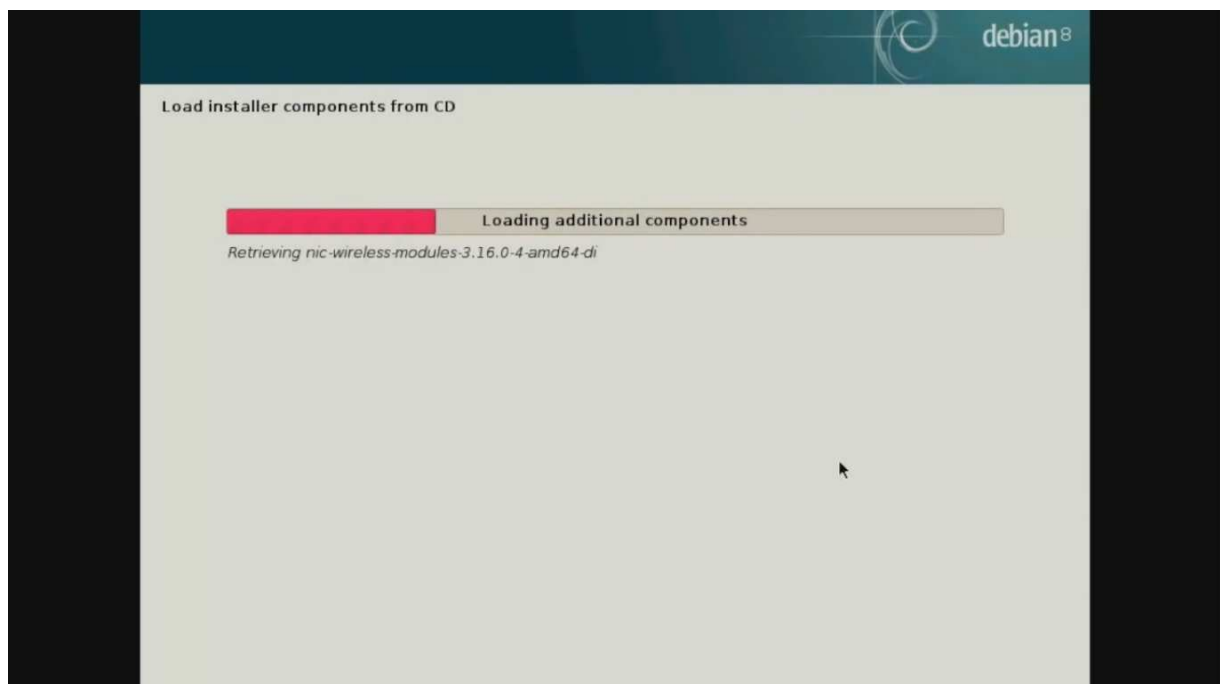

Lalu kita pilih bahasa yang akan kita gunakan pada system operasi.

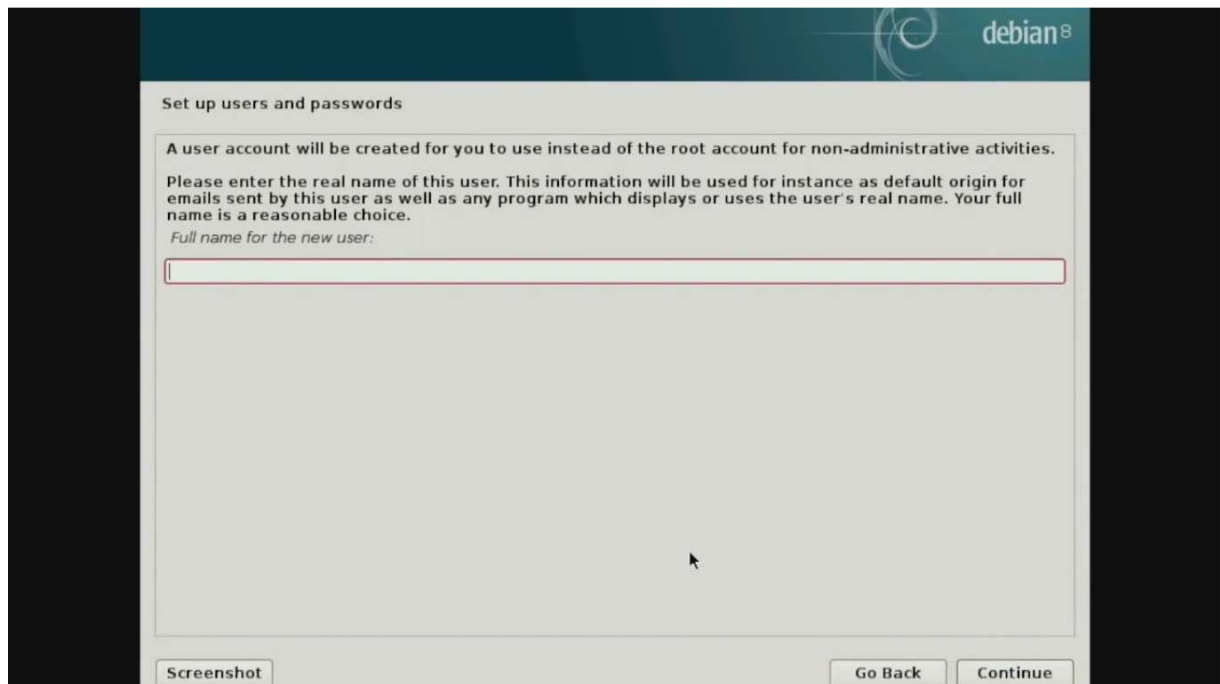

Lalu pilih Lokasi kita atau dimana kita tinggal.

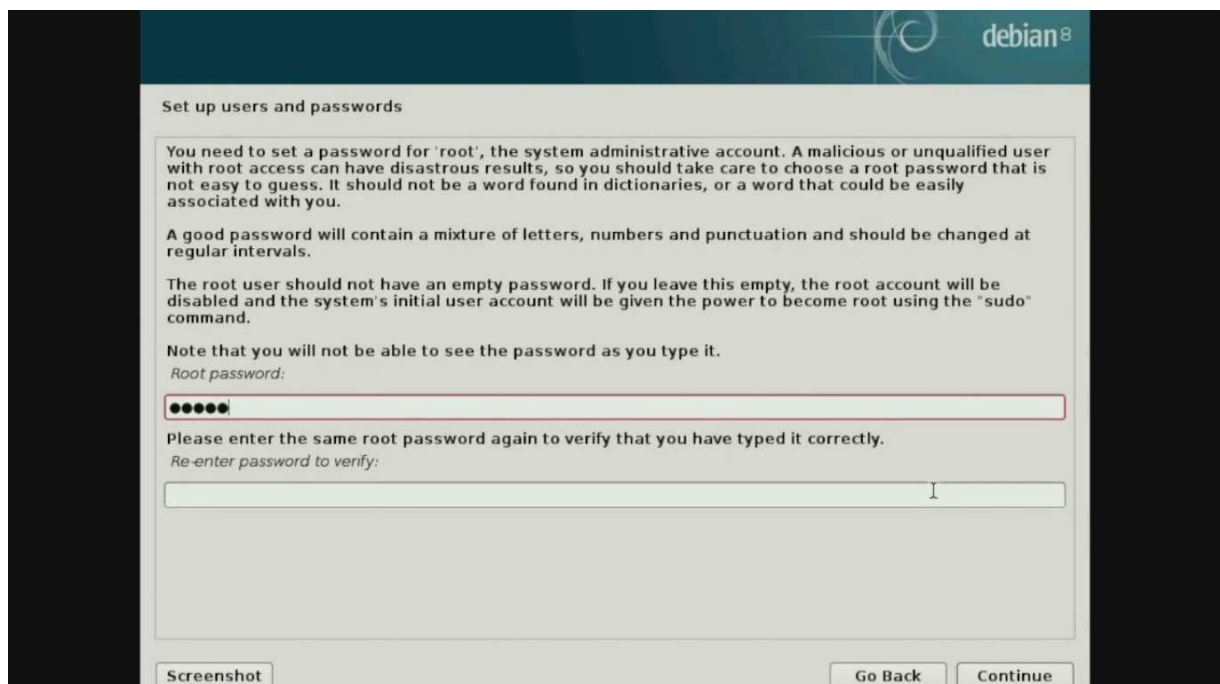

Di sini kita pilih layout standard keyboard yaitu American English

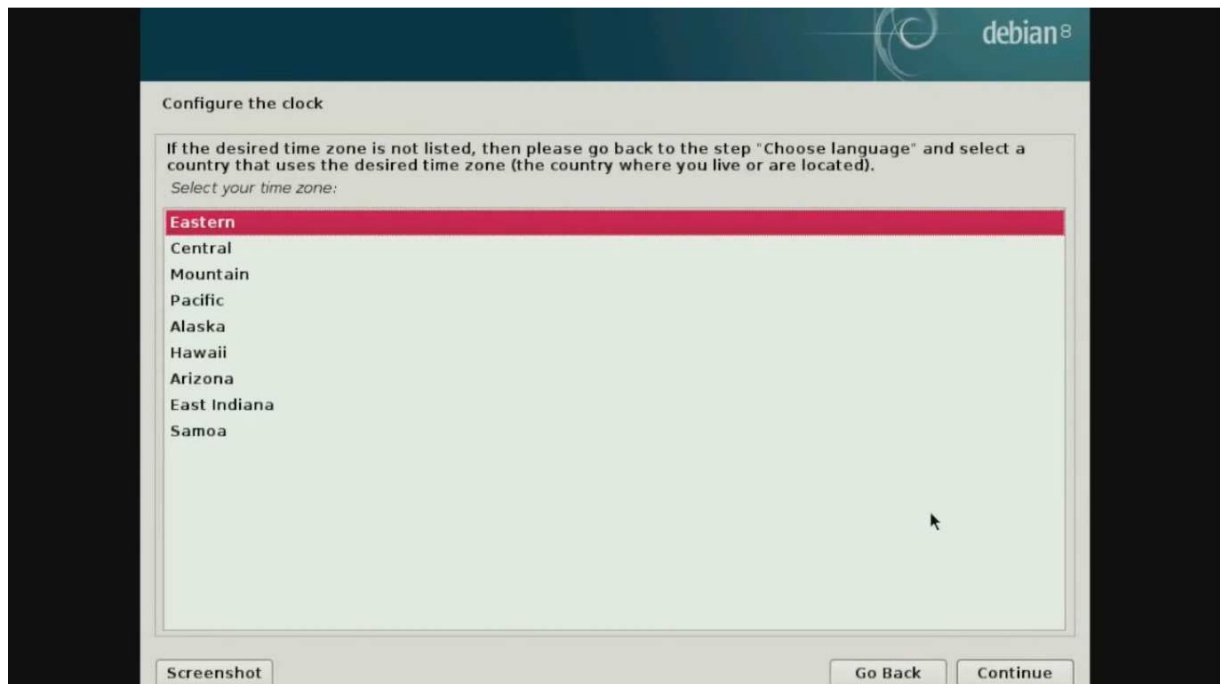

System sedang me load file instalasi dari CD-Rom

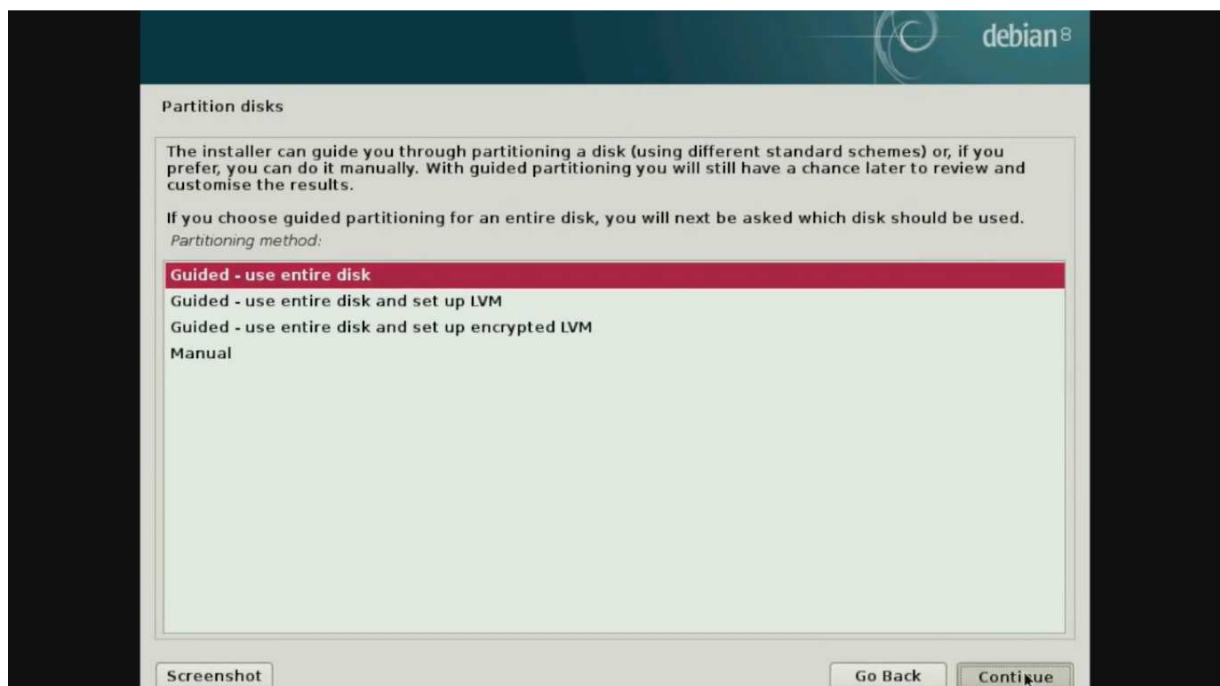

Lalu kita masukan name user

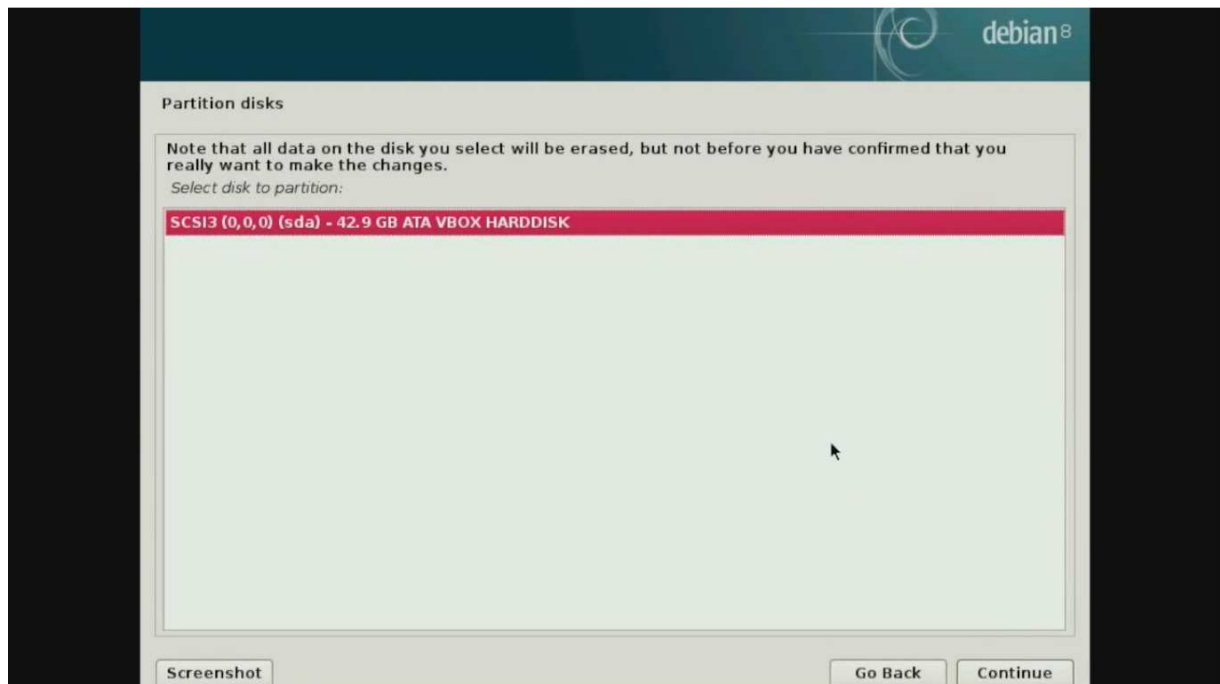

Masukan juga password sesuai yang kita inginkan

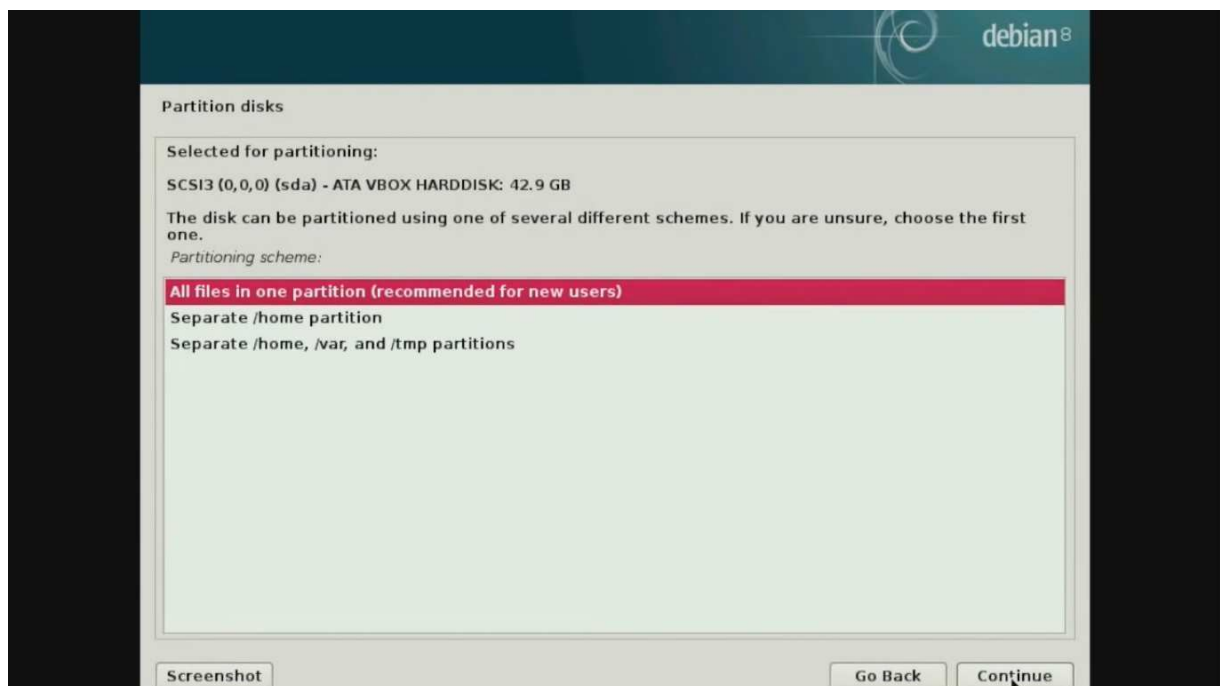

Karena kita tadi memilih Negara America, maka yang muncul adalah time zone di America. Yah gapapa biar antimainstream hehe

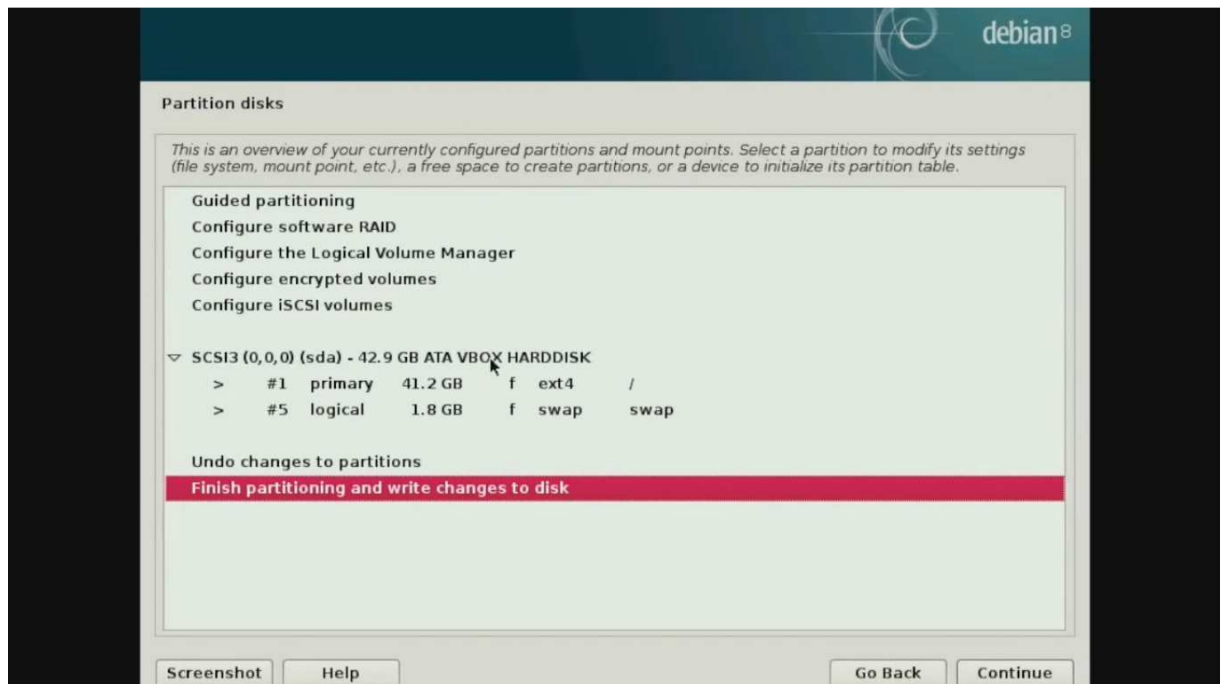

Lalu masuk ke langkah partisi hardisk, kita pilih yang paling atas karena set up paling atas adalah setup partisi paling mudah dan di sarankan untuk newbie.

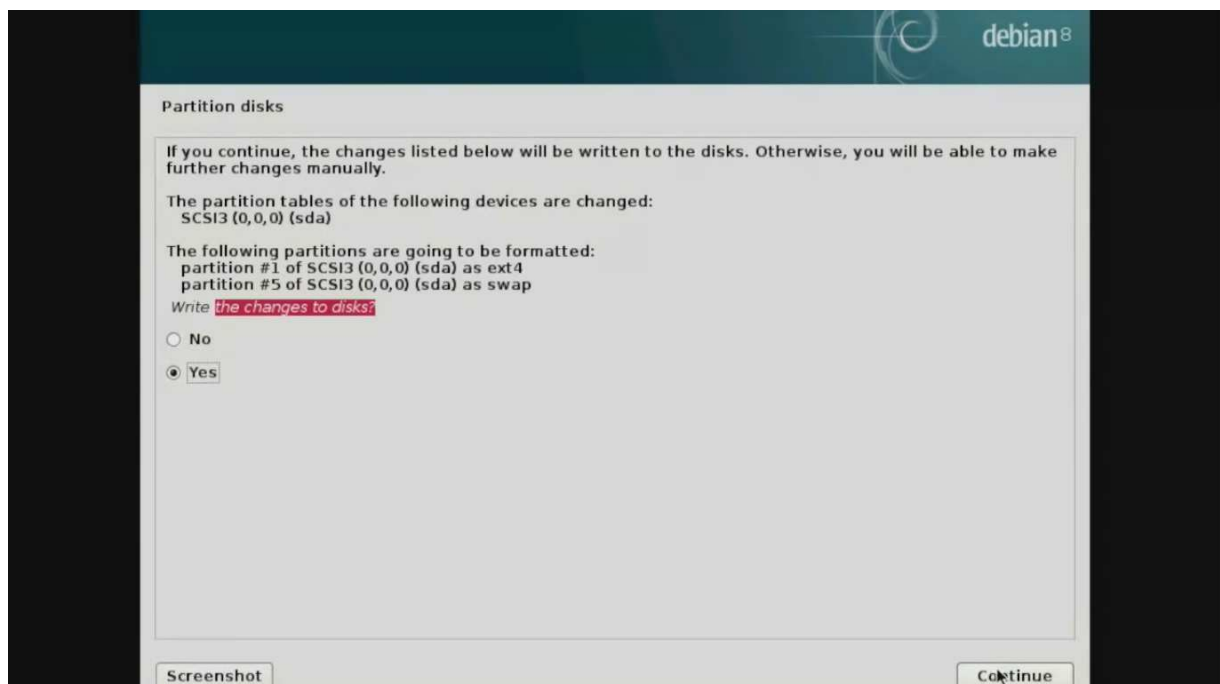

Pilih Disk kita

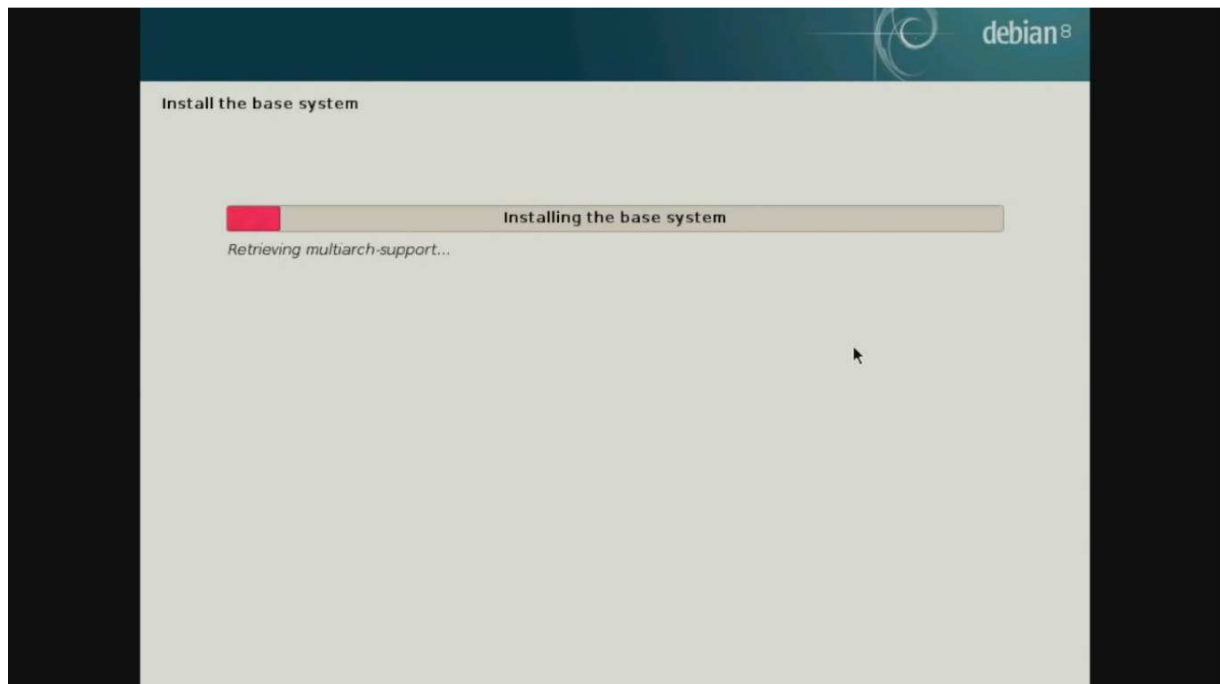

Kita pilih yang paling atas.

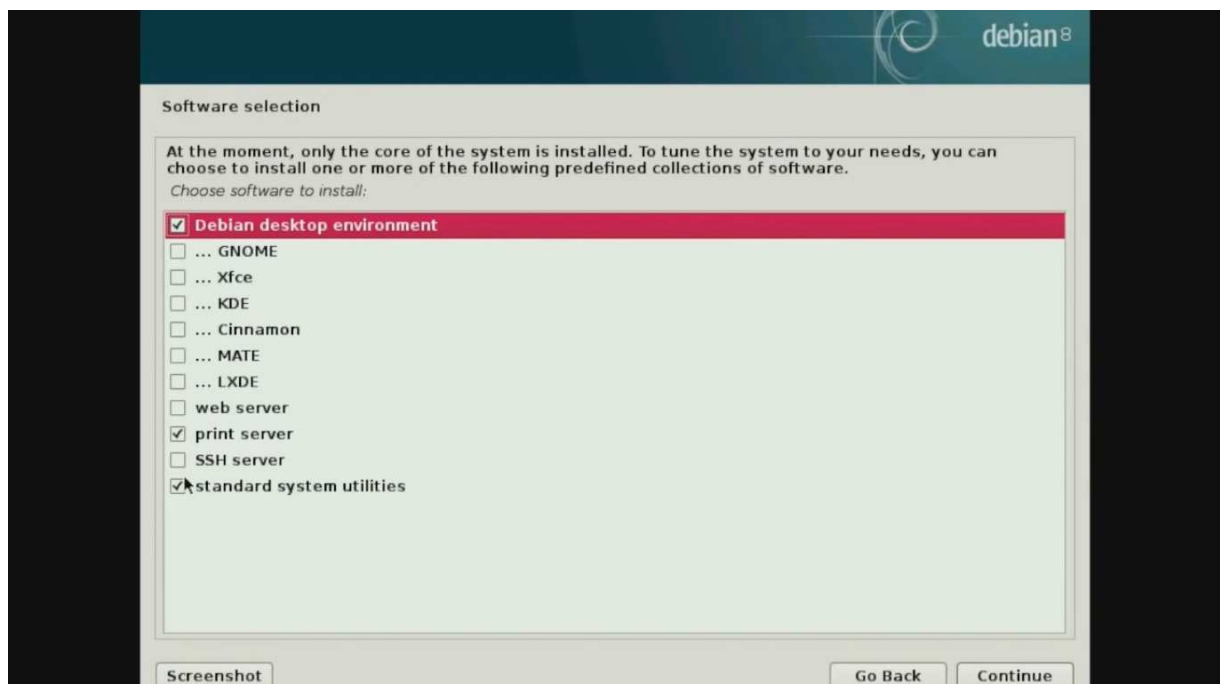

Nah system sudah mempartisi otomatis kan ?

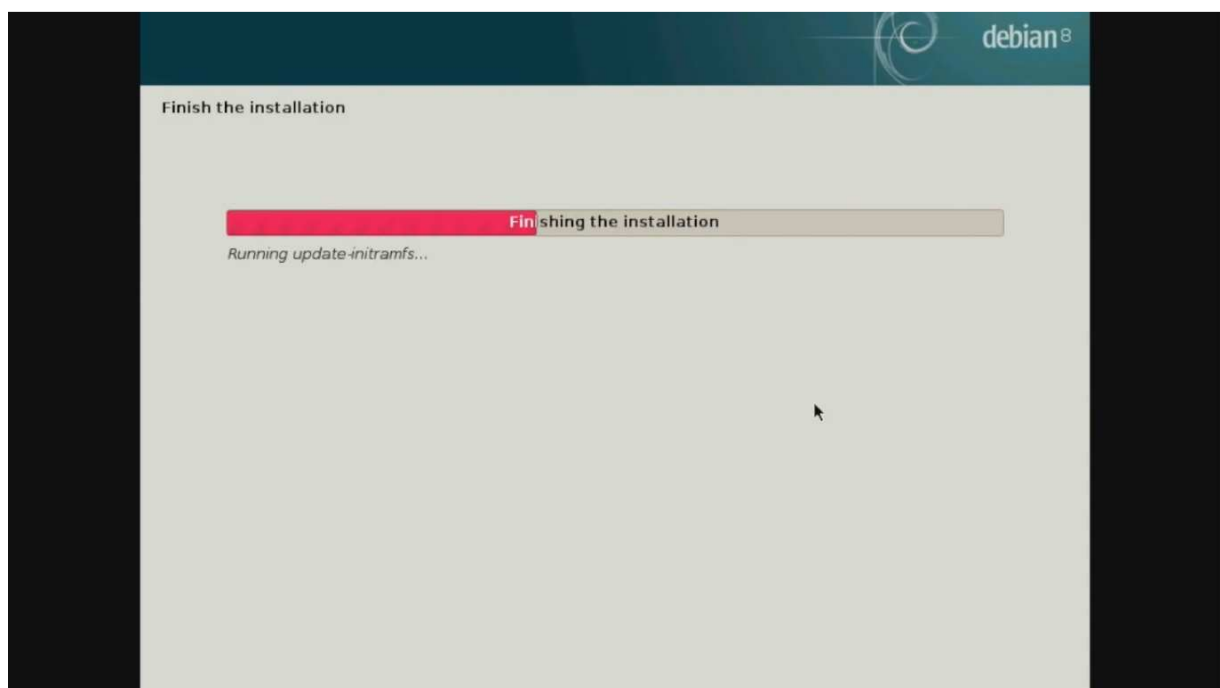

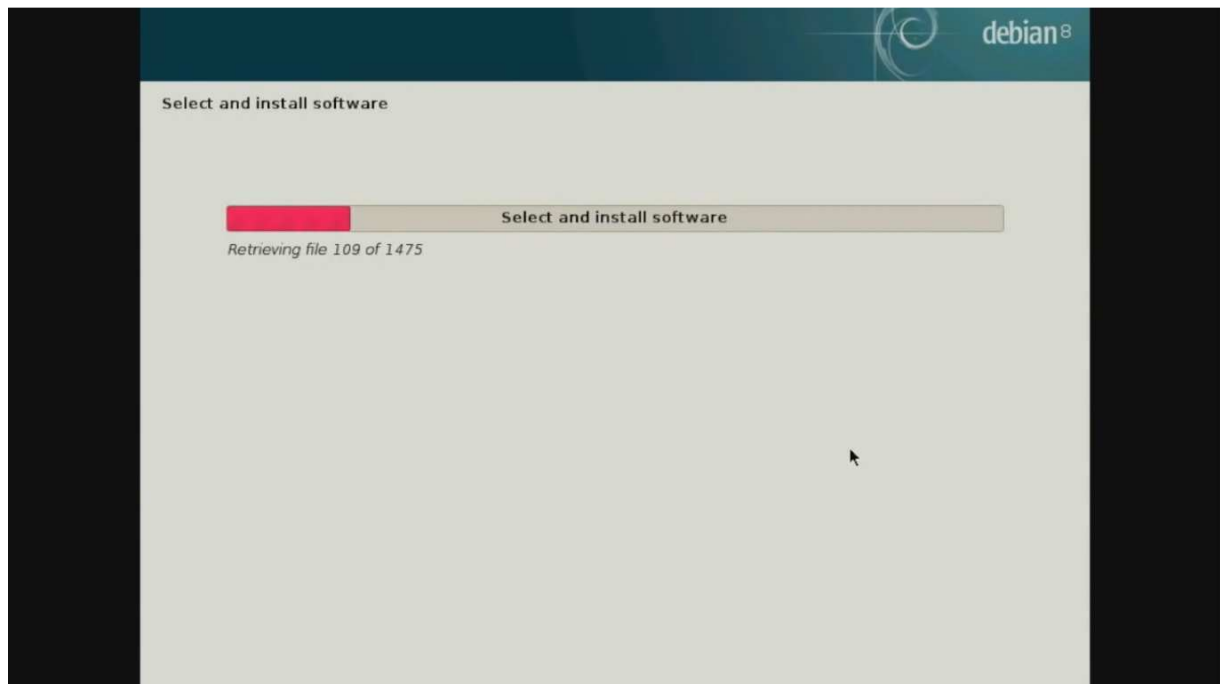

Lalu kita pilih Yes.

System sedang memulai proses instalasi.

Di sini kita bias memilih untuk menambahkan additional software system pada linux yang akan kita install.

Masuk ke bagian akhir dari proses instalasi, kita tinggal menunggu beberapa saat. Setelah itu system akan merestart.

Selesai.

Install the GRUB boot loader on a hard disk

It seems that this new installation is the only operating system on this computer. If so, it should be safe to install the GRUB boot loader to the master boot record of your first hard drive.

Warning: If the installer failed to detect another operating system that is present on your computer, modifying the master boot record will make that operating system temporarily unbootable, though GRUB can be manually configured later to boot it.

Install the GRUB boot loader to the master boot record?

☐ No

☒ Yes

Install the GRUB boot loader on a hard disk

You need to make the newly installed system bootable, by installing the GRUB boot loader on a bootable device. The usual way to do this is to install GRUB on the master boot record of your first hard drive. If you prefer, you can install GRUB elsewhere on the drive, or to another drive, or even to a floppy.

Device for boot loader installation:

Enter device manually

`/dev/sda (ata-VBOX_HARDDISK_VB20d4a13c-000686dc)`
